Technical Specifications: slurp

slurp is the most famous file acquisition program in the world. Featured in Wired Magazine, Network World, New Scientist, Make Magazine, and Business Week On-Line, **slurp** finds and copies all of the business documents and media files on a Windows PC in seconds.

The most common applications of slurp are: eDiscovery, quick backup, and creating a portable library.

eDiscovery

Efficiently locate and copy all documents and media files from a PC.

Quick Backup

Grab all of your business documents before making major hardware/software updates.

USB Portable library

Run slurp from a USB drive and create a portable copy of your MS Office documents.

System Requirements

Operating System:

Microsoft Windows XP or Vista

Minimum Hardware:

Pentium 750 MHz (Recommended: Pentium 1GHz or greater)

128 MB RAM (Recommended: 256 MB RAM or greater)
